單選題

The screenshot shows a mobile application interface for a grammar test. At the top, a blue header bar contains the text "文法測驗". Below this, a grey bar displays the question number "1" on the left and the time "16:37:03" on the right. The main content area contains a sentence: "I am not sure if Julia will show up at the party. She told me she _____ come if she didn't have to work late." Below the sentence are four options, each in a colored box: A might (dark green), B must (medium green), C had (light green), and D should (light green). A grey circular button with a right-pointing arrow is positioned to the right of the options. At the bottom of the screen, a grey bar shows "1 / 50".

Annotations with arrows point to the following elements:

- 題型** (Question Type) points to the blue header bar.
- 題號** (Question Number) points to the number "1" in the grey bar.
- 填空** (Fill-in) points to the blank space in the sentence.
- 選項** (Options) points to the list of options A, B, C, and D.
- 考試倒數時間** (Exam Countdown Time) points to the time "16:37:03".
- 下一題** (Next Question) points to the right arrow button.
- 題號 / 總題數** (Question Number / Total Question Count) points to the "1 / 50" at the bottom.

When you have old batteries, do not throw them into a garbage can. Since batteries contain chemicals that can harm our environment, dispose of them with care. Generally speaking, there are recycling centers for batteries in many communities. They can provide users with information on battery disposal methods. Before you discard used batteries, make sure to do some research on battery disposal policies in your neighborhood. With proper disposal of batteries, the danger of battery leakage can be prevented. To sum up, dispose of old batteries carefully and properly. The effort you put into this can help our environment.

What is the main purpose of this passage?

☒ A To report several battery explosions.

☐ B To tell readers to dispose of batteries properly.

☐ C To introduce different types of batteries.

☐ D To instruct people on the right way to charge batteries.

Since its effective jurisdiction has been limited to Taiwan and numerous smaller islands. In the early 1960s, Taiwan entered a period of rapid economic growth and industrialization called the "Taiwan Miracle". In the late 1980s and early 1990s, the ROC transitioned from a one-party military dictatorship to a multi-party democracy with a semi-presidential system. Taiwan's export-oriented industrial economy is the 21st-largest in the world, with major contributions from the steel, machinery, electronics, and chemical industries. Taiwan is a developed country, ranking 15th in GDP per capita. It is ranked highly in terms of political and civil liberties, education, health care, and human development.

Which industry has not made a major contribution to Taiwan's economy?

☐ A Electronics

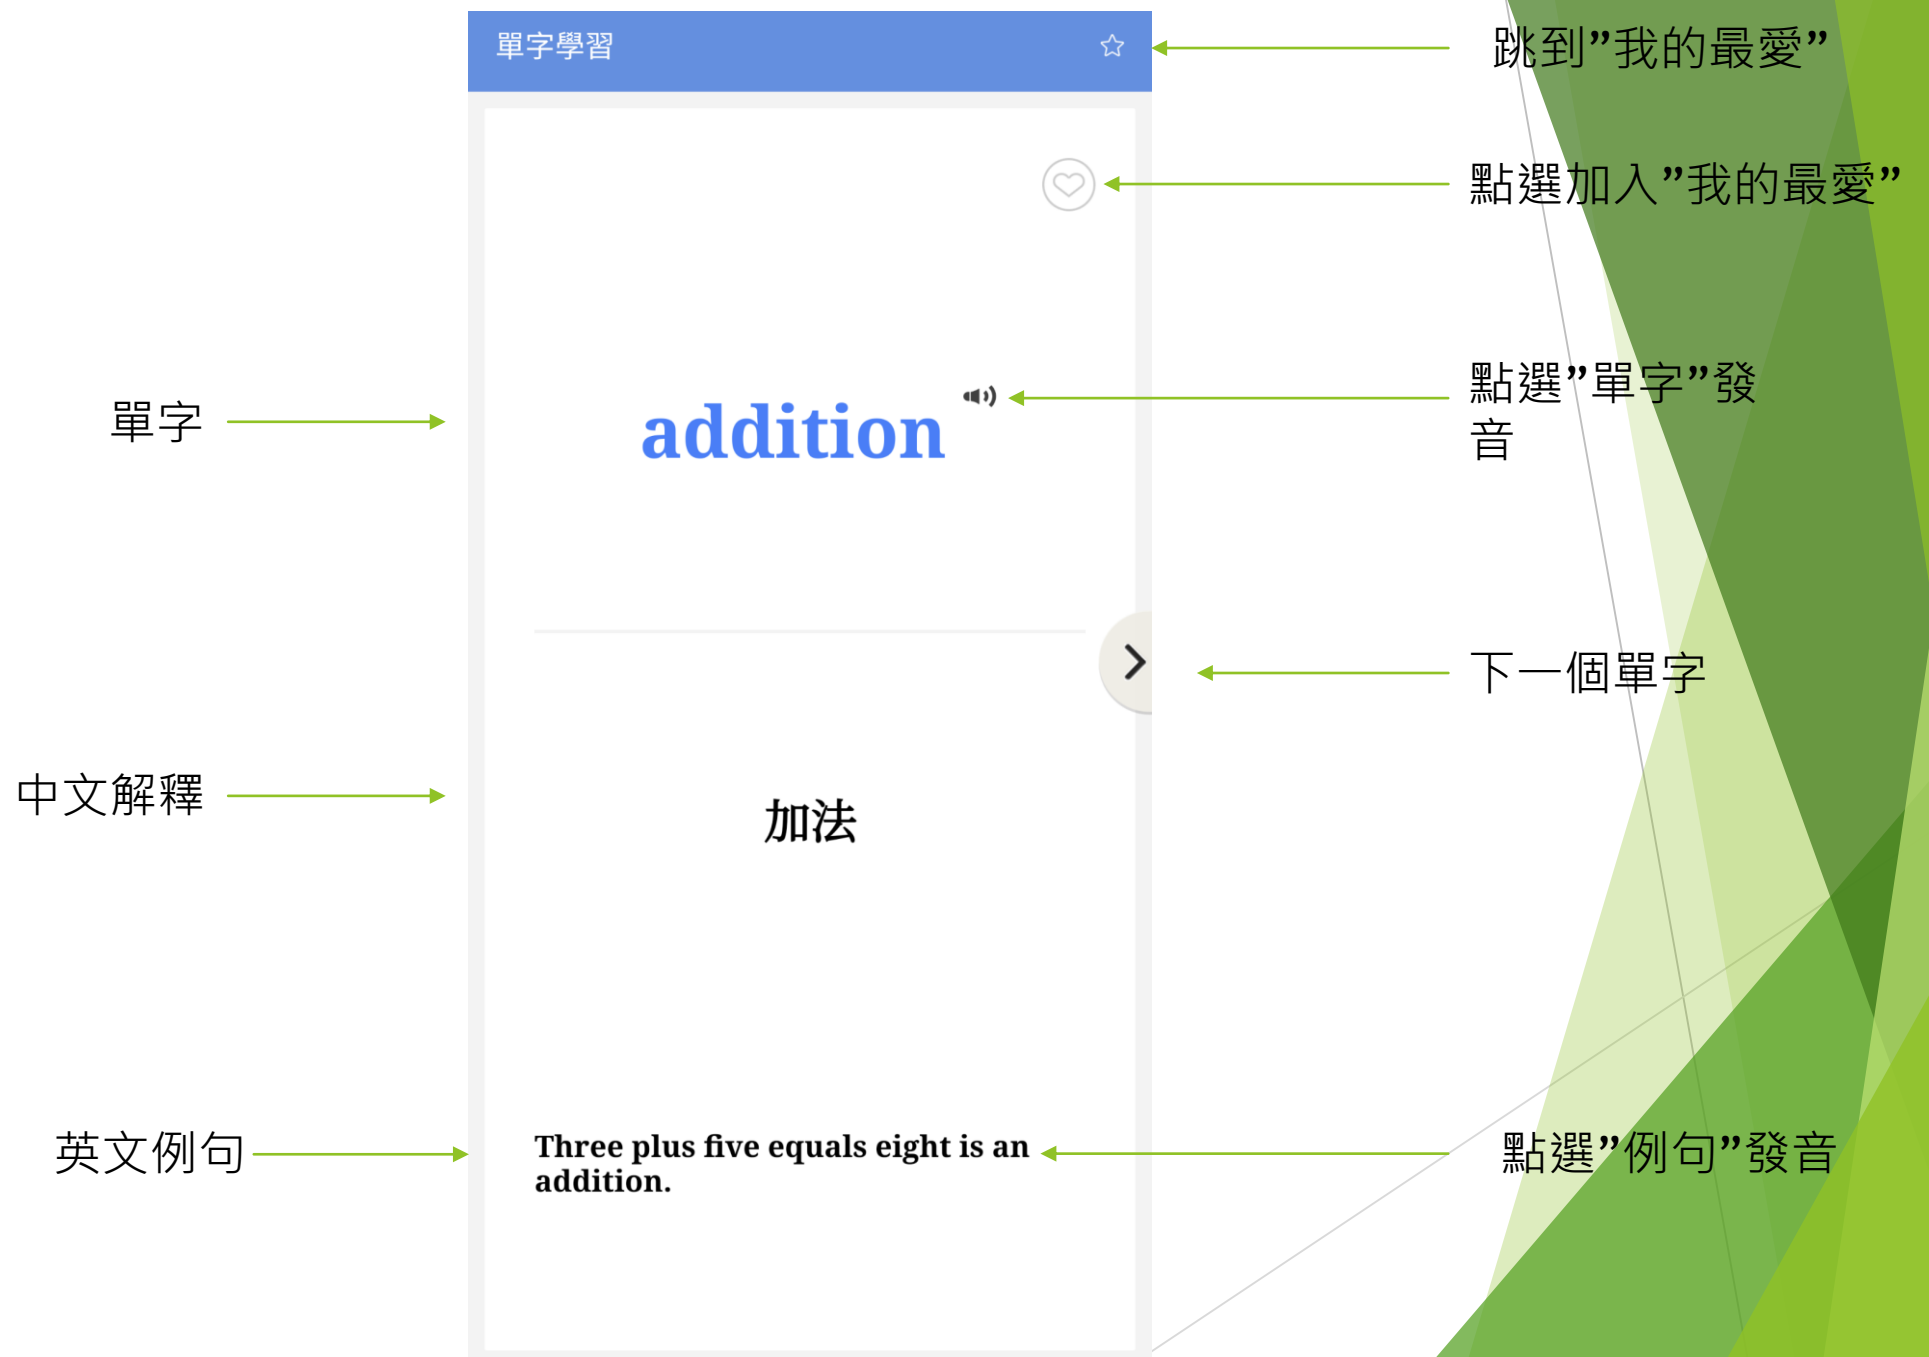

☐ B Machinery

☐ C Steel
